

FlexCam™ Flexible Gooseneck Camera

The FlexCam™ is an integrated color camera and microphone designed for desktop video presentations and collaboration.

The FlexCam's flexible gooseneck design allows easy adjustment for use as a document camera or as a face camera for video conferencing.

Featuring an integrated microphone, the FlexCam captures the voice of the presenter or instructor. The microphone includes a preamplifier to facilitate connection to a video codec or audio reinforcement system.

Available in both NTSC and PAL versions, the FlexCam is compatible with most video capture cards, TVs, VCRs, and LCD projectors.

The FlexCam comes complete with a 6' (1.83 meter) S-video/audio cable, power supply, S-video to composite adapter, and BNC pigtail adapter.

The FlexCam is a cost-effective way to add document viewing to presentations.

Features and Benefits

- Integrated color camera and microphone for desktop video presentations and collaboration
- 18"/45 cm flexible gooseneck can be adjusted for use as a document camera as well as a face camera for video conferencing
- Compatible with most video capture cards, TVs, VCRs, and LCD projectors
- Platinum white exterior color blends well with computer systems and peripherals
- Available in NTSC and PAL versions
- Includes 6' (1.83 m) cable

Applications

- Lecture halls
- Auditoriums
- Classrooms
- Conference rooms
- Executive boardrooms
- Desktops

The FlexCam is manufactured and marketed by ClearOne, formerly VideoLabs.
